Fuerte (Type B)	5ltr bag	\$99.95		Self-fertile. Cross pollinate with a Type A variety for better cropping.
Hass (Type A)	5ltr bag	\$99.95		Self-fertile. Cross pollinate with a Type B variety for better cropping.
Lamb Hass (Type A)	5ltr bag	\$99.95		Self-fertile. Cross pollinate with a Type B variety for better cropping.
Pinkerton (Type A)	5ltr bag	\$99.95		Self-fertile. Cross pollinate with a Type B variety for better cropping.
Reed (Type A)	5ltr bag	\$99.95		Self-fertile. Cross pollinate with a Type B variety for better cropping.
Wurtz (Type A)	5ltr bag	\$99.95		Self-fertile. Cross pollinate with a Type B variety for better cropping.

FEIJOA		Price	Qty	Maturity	Pollination
Feijoa (Seedling Grown)	140mm pot	\$17.95		Mar - May	Self-fertile
Feijoa (Seedling Grown)	180mm pot	\$29.95		Mar - May	Self-fertile

LOQUATS		Price	Qty	Pollination
Bessell Brown	25cm pot	\$69.95		Self-fertile. Recommend additional variety for cross pollination.
Enormity	25cm pot	\$69.95		Self-fertile. Recommend additional variety for cross pollination.
Herds Mammoth	25cm pot	\$69.95		Self-fertile. Recommend additional variety for cross pollination.

MULBERRIES		Price	Qty	Maturity	Pollination
Black English	25cm pot	\$79.95		Jan-Feb	Self-fertile

OLIVES		Price	Qty	Pollination
Flemings Jumbo	25cm pot	\$59.95		<p>Most olives are partially self-fertile. Cropping may be improved by planting two or three different varieties for cross-pollination. Note: We recommend planting Manzanillo and Spanish Queen together for cross-pollination. Picual is also known to be a particularly good pollinator for most varieties. Some combinations won't cross-pollinate each other including Kalamata & Manzanillo, Mission & Kalamata.</p>
Kalamata	14cm pot	\$21.95		
Kalamata	25cm pot	\$59.95		
Manzanillo	14cm pot	\$21.95		
Manzanillo	25cm pot	\$59.95		
Mission	14cm pot	\$21.95		
Mission	25cm pot	\$59.95		
Piccolo	14cm pot	\$21.95		

Spanish Queen (Sevillano)	25cm pot	\$59.95

PEPPERBERRY <i>Tasmannia lanceolata</i>		Price	Qty	Pollination
Male Mountain Pepper	140mm pot	\$17.95		Female mountain pepper required for pollination.
Female Mountain Pepper	140mm pot	\$17.95		Male mountain pepper required for pollination.

PERSIMMONS		Price	Qty	Maturity	Pollination
Fuyu	<i>Non-astringent</i> / 25cm pot	\$79.95		Apr-June	Self-fertile
Jiro	<i>Non-astringent</i> / 25cm pot	\$79.95		Mar-May	Self-fertile

TEA PLANT (<i>Camellia sinensis</i>)		Price	Qty	Maturity	Pollination
Tea Plant	150mm pot	\$24.95			

Terms and conditions

All orders are subject to the following terms and conditions. Please indicate on your order form that you agree to them.

Pollination and maturity

Information on our order forms has been collated from our suppliers, staff and other sources, and may not reflect your local conditions. We make no guarantees as to its accuracy and it should be used as a guide only. **Pollination:** For trees that aren't self-fertile, to produce fruit they'll need at least one other compatible variety for cross-pollination. The list of pollinators for each tree is based on the varieties that we sell and isn't comprehensive. If you've got other varieties planted nearby, these may well produce viable pollen for cross-pollination. **Triploid apple varieties:** Triploid apples don't produce viable pollen to cross-pollinate other apple trees. It's recommended that you plant two or more other compatible varieties with triploids for best results. **Partially self-fertile:** These varieties will produce some fruit on their own but a cross-pollinator is recommended for a larger crop.

Ordering and deposit

To place an order, email the completed form in **Excel format to sales@greenhillnursery.com.au**, or print it and return to Greenhill Nursery, or call (03) 6239 6850. On placing your order, you'll need to pay a non-refundable deposit to reserve your fruit trees (credited on payment and collection). Deposit amounts are as follows:

- **\$20** for orders less than \$200 that don't include 5 or more of a single variety.
- **25% of order value** for orders over \$200, or that include 5 or more of a single variety.

Deposit can be paid with a Visa or MasterCard by calling 03 6239 6850, in person at Greenhill Nursery, or EFT to our bank account. **Bank account name:** Greenhill Nursery P/L **BSB:** 017214 **Acc No:** 904505554. Please use your name as payment reference, and email confirmation to sales@greenhillnursery.com.au.

***Please note:** For orders after 1 June 2020, full payment may be required on placing your order.

Supply, availability and pricing

Order fulfilment is subject to availability with our suppliers, as well as factors outside of our control (eg. damage during transit, crop failure, weather events, etc.). If we become aware of any issues affecting fulfilment of your order, we'll notify you as soon as possible.

Pricing is also subject to change in situations where supply constraints mean we need to switch suppliers for an item/s you've ordered. We'll let you know if there are any significant changes to your order total.

Collection and payment

We'll notify you by phone or email when your order is ready for collection. Plants need to be collected within 2 weeks of notification, unless prior arrangements have been agreed to with Greenhill Nursery. The usual arrival times for stock are as follows:

- Potted fruit trees - Early May
- Bare root fruit tree orders - Early to late June
- Bare root ornamental tree orders - Mid to late June

Where no prior arrangements have been agreed to with Greenhill Nursery, orders not collected and fully paid within 2 weeks of notification may result in loss of deposit, and stock will be returned for sale.

Pruning

Bare root trees need to be pruned appropriately prior to planting in order to stimulate growth, to ensure the trees root system can support its canopy, and to ensure the tree is well balanced and shaped. All trees will be pruned prior to collection unless you select 'No' on your form. Please make sure you let us know if you intend to espallier any of your trees, or use them in a duo or trio planting (ie. two or three bare root fruit trees planted in the same hole).

***Please note:** an additional pruning fee may apply to some large orders of ornamental trees.

Delivery

It's preferable and most cost effective to collect your trees from the nursery or arrange for someone to collect on your behalf, but we can deliver to most places within Tasmania and interstate for an additional cost. Bare root trees generally don't take up huge amounts of space (especially after pruning) and small orders will easily fit in most cars.

Planting and caring for bare root trees

When you collect your trees we're happy to answer any questions you've got about planting and caring for them, and you're also welcome to call us if you need any help. Provided you've adequately cared for your bare root trees, in most cases they'll break dormancy in spring, but it's not uncommon that they'll show few signs of life until as late as December and sometimes into January. If you think a tree you've purchased from us has died, please don't remove it from the ground and instead call us on (03) 6239 6850.

Refunds, returns and exchanges

Greenhill Nursery and its suppliers take great care to ensure we supply you with healthy and hardy bare root trees, and we use the same stock in the nursery with overall failure rates of less than 1%! However, bare root plantings in the field are far less controlled and failure rates of up to 10% (or even higher with certain varieties such as oaks) are to be expected. Once bare root trees leave the nursery, some of the factors that can contribute to them failing to break dormancy include the drying out of roots; delays in planting; incorrect pruning; under and over watering; amount and type of fertilisers used; soil type and condition; pests including insects and animals; air, soil and waterborne diseases; and other environmental and climatic conditions.

The cheaper pricing of bare root trees when compared to containerised stock also indicates an assumed risk that some of your trees may not survive transplanting and will fail to grow. If you'd like a more assured product then we recommend buying trees in bags and pots.

For these reasons we don't offer refunds, returns or exchanges on bare root stock, except where we've determined stock to be defective, or in accordance with Australian consumer law. If you experience any issues with your bare root trees, please phone us on (03) 6239 6850.
