Manzanillo	25cm pot	\$74.95	Most olives are partially self-fertile. Cropping may be improved by planting two or three different varieties for cross-pollination. Note: We recommend planting Manzanillo and Spanish Queen together for cross-pollination. Picual is also known to be a particularly good pollinator for most varieties. Some combinations won't cross-pollinate each other including Kalamata & Manzanillo, Mission & Kalamata.
